

Take part in our Cybercrime Survey!

Hello John

Along with our Cyberhood Watch partner, Avast, we are launching the latest Cybercrime Survey which will help us understand the impact of online crime and scams on our members. There's also the opportunity of winning some very useful M&S vouchers!

[Enter now](#)

The findings of the survey will be used to inform the ongoing Cyberhood Watch awareness initiatives and help our Cyberhood Watch Ambassadors. It will also draw attention to important topics which will help everyone protect themselves - and their loved ones - from cyber criminals.

The survey will close on Friday 15 December - [we'd really love to hear your views](#) and of course, we will load the report onto our website once it is available so you can take a look for yourself!

Thanks in advance for your support in the fight against cybercrime in the UK.
